SECOND REMINDER

Re: First Draft of U.S. Utility Patent Application For:
DUAL PROFILE MOLDING
Our Ref.: 30163.30225

Dear Mr. Lamb:

I have enclosed three documents for your review. You should find a first draft of the above-captioned patent application, including Figures 1-7 on 7 drawing sheets. You should also find a Declaration and Power of Attorney document (Declaration) and two copies of an Assignment. These documents are discussed further below.

Please have Mr. Klein read over the patent application for accuracy and completeness. If Mr. Klein has any changes to make, feel free to make them directly on the copy and mail it back to us for our revision.

If the application looks correct, Mr. Klein should sign the Declaration and mail it back to us. Note that Mr. Klein's home residence address is also required. By signing this document, he is identifying himself as a co-inventor of the invention described in the patent application and is granting us Power of Attorney to represent him before the U.S. Patent and Trademark Office. Note that **the Declaration should not be signed prior to making any changes in the application**. It is important that no one makes changes to the application after the Declaration is signed. Note that the Declaration places upon Mr. Klein and me a duty to disclose to the Patent Office other products and inventions, which an Examiner might believe are relevant to the investigation of your invention. If he knows of similar devices, magazine articles, etc., which are similar to his invention, please disclose them to us and provide them to us so that we can disclose them to the Examiner.

The Assignment (two copies enclosed) must also be signed. We previously sent to you the two original assignments on March 13, 2003, but we enclose them again for your

convenience. By signing this document, Mr. Klein is assigning his patent rights in the above-identified invention to The Goodyear Tire & Rubber Company. **Please have Mr. Klein sign both originals of the Assignment Agreements and have them notarized and witnessed;** then mail them back to us. Upon receipt, we will record one copy of each Assignment in the U.S. Patent and Trademark Office and keep a copy in our files for safekeeping.

I look forward to receiving your comments and/or the signed Declaration and Assignment at your earliest convenience. Please feel free to call if you have any questions or would like to discuss this case further.

Very truly yours,

BROUSE MCDOWELL
